

ITAM Thesis template

A beautiful `LaTeX` template for a thesis/dissertation at the *Instituto Tecnológico Autónomo de México* (ITAM). The template is based on the [Dissertate](#) template and includes everything needed to support the production and typesetting of a B.A./B.S. dissertation at ITAM.

- This template has been uploaded to [Overleaf](#).

Getting started

1. Install `LaTeX`.
2. Install the default fonts: EB Garamond, Lato, and Source Code Pro.
 - The files are provided in the folder `fonts`.
3. Personalize the document by filling out your name and information in `frontmatter/personalize.tex` and in `endmatter/personalize.tex`.
4. Personalize the abstract, preface, and acknowledgments in the folder `frontmatter`.
5. Edit the files located in `chapters` to add the content of your thesis (chapters and appendices).
6. The `references.bib` file contains the references. By default, the references are cited in the [APSA](#) style (`APSA.bts`).
 - Explore more `.bts` styles at [BibTeX](#) and refer to this page for [BibTeX Style guidance](#).
 - To modify the BibTeX citation style, refer to the `Dissertate.cls` file at line `541`.
7. Build your dissertation with `XeLaTeX`.
